GLEOCOE ATTACKED.

Thousands of Boers Make Attempt to Take the Place.

MEET WITH DEFEAT.

British Troops Charge upon the Enemy Putting Boers to Flight and Capturing Several Big Guns. British Loss Heavy.

Ladysmith, Oct. 20.—It is reported here that the Boers began shelling Glencoe camp with big guns and troops and that British troops are moving out.

Another dispatch from General Symons announced that the Boers were shelling Glencoe camp with big guns and troops moving out to attack them. An official message from Glencoe announces that the Boers' strength was about 9000 men. The Boers posted guns on the hill overlooking the town, opened fire on the camp and the battle became general.

The King's Royal rifles and Dublin fusiliers attacked the hill occupied by the Boer artillery. They are within 300 yards of the position and are advancing under cover of artillery at about 2000 yards range.

Scouts report 9000 Boers advancing on Hattingsspruit.

The Fifteenth battery and Leicester regiment have gone to meet them.

A dispatch from Glencoe announced that the Boers' position had been captured after heavy fighting, during which five guns were taken.

An unconfirmed report was received here that Boer artillery was shelling Dundee.

MOBILIZATION COMPLETE.

Ninety per Cent of the British Reserves Return to Their Colors.

London, Oct. 20.—Mobilization is practically completed and it is said more than 90 per cent of the reservists have rejoined colors. This is considered eminently satisfactory. The speed with which the army corps have gotten together has excited the admiration of the German headquarter's staff and they sent a semi-official message of congratulation through the British military attaché at Berlin to the service.

The London press regards this as a well deserved compliment, the papers pointing out that not only have the reservists responded splendidly, but a large majority of those who have responded are medically fit for service. In several cases of outgoing regiments they contain a preponderance of reserves, most of them in the prime of manhood and men who fought in India and Egypt. It is the aim of the war office to send no man to South Africa unless he has had at least one year's service.

The only serious criticism apparently to be made regarding the thousands destined for the front is of the reserves who are for the most part ignorant of the mechanism of the magazine rifles. What effect this lack of familiarity with the weapons will have upon the accuracy of the fire of the British can only be judged when the dead and wounded are gathered on the field of battle.

London, Oct. 20.—The war office has received a report that General Symons was wounded during the engagement at Glencoe.

Another dispatch from Sir George Stewart White dated Thursday evening from Ladysmith says:

"The Boers commenced descending the western pass on Tuesday and came in contact with our patrols. They continued advance, halting for the night with their left flank at Besters station, their center at Bluebank and their right more retired.

"At Actons Home Lieutenant Galway of the Natal carabiners is missing and Trooper Spencer of the Natal carabiners is slightly wounded.

"I have moved my camp into position with the object of covering the town of Ladysmith and I had hoped the Boers might be sufficiently near for me to strike a blow.

"Communication with Glencoe is cut off at Elands Laagte, where they captured goods and a train. The Boer train is advancing over Boggarsberg, Nek. Communication by telegraph still open via Greytown.

SITUATION REVIEWED.

Summary of War News Received at the English Capital.

London, Oct. 20.—Thursday was one of the most exciting days known at the war office since the crowd attended there to learn the result of the relief expedition to Gordon at Khartoum.

The news that the Fifth lancers had been engaged brought many ladies and other friends of the regiment to inquire for news.

The gravest intelligence seems to be the report of the capture of a train of officers at Elands Laagte, because it was understood that the whole cross country line was regularly patrolled.

As no correspondents are allowed at the front, it is impossible to gain definite information, but it is known that General Sir Stewart White has been making some extensive movements of the troops in that neighborhood and developments are hourly expected.

It is rumored that Commandant Joubert's northern column with 12 guns is now at Dannhauser.

Although the Boers have shown considerable activity in Natal, there is nothing to indicate that they are yet prepared for a serious combined attack and the general belief here is that unless something unexpected happens, Sir George Stewart White will maintain the defensive.

Mafeking news is still confined to a repetition of the stories that Colonel Baden-Powell mowed down 300 Boers with his Maxims.

The surrender of Vryburg is not of great importance, but it will be regarded throughout Boerdom as a splendid triumph over the British.

Some military critics think it not impossible that General Sir George Stewart White may be about to withdraw his forces from Glencoe and concentrate them at Ladysmith, there to await developments.

The latest advices received here say that the Natal combiners, who were engaged with the enemy at Besters' station, had six men wounded.

Several spies have been arrested at Ladysmith.

The admiralty has made large contracts for the supply of coal to all coaling stations on the way to the cape, so that any British squadron will be enabled to coal without weakening the present supply.

The cruisers Argonaut, Furious, Pacificus and Peterloo, from the channel squadron, will escort the transports from Queenstown to the cape.

Rent for the Boers.

London, Oct. 20.—The war office has received the following official dispatch from Ladysmith, filed at 3:30 o'clock this afternoon, concerning the attack on Glencoe:

"We were attacked at daylight, the force roughly estimated at 4000. They placed four or five guns in position on the hill 5400 yards east of our camp and they fired plugged shells from their artillery, but did no damage. Our infantry formed for an attack and we got our guns into position. After the position of the enemy had been shelled, our infantry advanced and after a hard fight, lasting until 1:30 p.m., the almost inaccessible position was taken, the enemy retiring eastward. All of the Boers guns were captured. We can see our soldiers on the top of the hill. Our cavalry and artillery are still out. General Symons was severely wounded. Our losses are heavy."

Still Another Report.

Cape Town, Oct. 20.—Glencoe camp has been attacked by a great force of Boers who posted guns on the hill overlooking that town and opened fire on the camp.

COLUMBIA WINS.

Takes Three Straights from the Shamrock in the Yacht Race Series.

New York, Oct. 20.—The Columbia won a magnificent race from the Shamrock today, taking three straights from the English yacht, thus winning the series.

The Shamrock crossed the starting line at 11:00:34 and the Columbia 1 minute and 1 second later. The Shamrock kept the lead for more than six miles and at one time was more than 200 yards in the lead.

The wind blew at an 18 knot gait, and both boats were at their best from the very start. The Columbia began to creep up upon the Shamrock, and when the turn was made they swept around together.

After the turn the Columbia began to assume the lead, and the Shamrock began to draw up and made a grand struggle for the finishing line.

The Shamrock struggled gamely, but could not gain on the Yankee boat, but lost steadily and the Columbia crossed the line a winner.

Unofficial time: Columbia, 2:40:30; Shamrock, 2:45:25.

Big Texas Hog.

Paris, Tex., Oct. 20.—Eldridge Carter, a farmer on Euberson prairie, has the largest hog in this section, if not in the state. It is part Poland China and part Berkshire, is 2 years old and weighs 800 pounds. Owing to its mass of flesh it cannot stand on its feet more than a minute or two at a time, and feeds sitting on its haunches. When lying down it requires three or four attempts before it can get up.

THE TRUTH ABOUT IT.

The Denver Times has this to say of the democratic carnival at Dallas and matters connected with it.

Texas democrats came sufficiently under the hypnotic influence of Colonel Bryan to contribute \$20,000 to the democratic campaign fund. This was in addition to the amount paid Colonel Bryan for making his addresses at the Dallas conference.

This story has been going the rounds of the press ever since the carnival. Credence is given to it, as shown by its wide circulation. The whole truth is that Mr. Bryan did not charge anything for making a speech or speeches. He made four of them in the two days he was at the Dallas fair and not a cent was paid to him. He paid his railroad fare, his hotel bills and his way into the fair where he made his speeches. At the dollar dinner, where about \$6500 was subscribed for the democratic campaign fund, he subscribed \$100. Though Mr. Bryan is a candidate for the democratic nomination for the presidency and he thereby makes himself a target for partisan attack, fairness should put an end to statements such as that published above.—Galveston News.

The following extract from an interview gives Mr. Bryan's views on the Philippine question:

"No, I do not favor the withdrawal of our troops. What I do believe and have repeatedly announced, is that we should at once declare our purpose in unequivocal terms, so positive that the Filipinos can not doubt it, to grant them full and complete independence the moment they have established a stable government. I believe that if we should make such an announcement right now the war would cease in a very short time, and our troops could withdraw without laying down their arms in the face of the enemy. Furthermore, I believe if we had come out with such an announcement in the beginning, the war would never occurred. I am not unaware that a few half-hearted efforts have been made in that direction from time to time, but they were made in such a way as to raise strong question of their sincerity."

Wanted—Second hand buggy. Must be very cheap. Apply to I. C. U., this office. d287

BRYAN ON PROSPERITY.

Why they tell us that the discovery of gold in the Klondike will make money more plentiful, and the more money there is the better the times will be. That a plentitude of money makes times better is true, then why not have bimetallism and that much more money? It is the quantitative quality of money that makes it potent in securing prosperity. Suppose it rains and the fields are freshened, the crops are benefited and take on renewed growth and fructify abundantly; but a farmer goes out and views the smiling result of the rain and says: "I am opposed to rain, I don't want any more at all." Wouldn't you call him a fool? Yet the man who admits that a plethora of money makes good times and yet opposes that plethora, is no less an idiot than this farmer. Because large exports of merchandise and large imports of foreign gold give us prosperous times, they say we don't need bimetallism. These exportations bring us more money and this excess of money makes the times good, but why wait for a famine in Europe to make a market for our exports to have prosperous times when bimetallism will give us good times all the time? The republicans are shouting with glee that they have expended \$200,000,000 among the people during this administration and say that is an evidence of the wisdom and goodness and the glory of the McKinley administration. This \$200,000,000 has been expended in conducting a war, and they don't tell you of the bonds sold to get the money to expend, bonds that the people must pay. They do not tell you of this draft upon the future for money to expend and squander in the present. They forget about the post offices that the next heirs must pay off while the present heirs revel and riot. If a man builds an addition to his house and mortgages his house to pay for it, is he wise to point to the addition as an evidence of his prosperity? Yet the republicans think to issue and sell bonds that the people must pay interest on and finally pay off is prosperity.—W. J. Bryan.

HIGHWAY ROBBERY.

Lamar County Farmer Relieved of a Snug Little Amount.

TWO MEN ROB HIM.

One Climbs in the Back of His Wagon and Takes Hold of Him While the Other Stands Guard by the Roadside.

Paris, Tex., Oct. 20.—P. B. Chastine, a farmer, living in the northwest portion of the county, near Direct, was held up and robbed of \$135 by two unknown persons a mile and a half from Paris on the Garrett's ferry road.

There was a thicket on each side of the road. The first intimation that he had of the presence of the robbers was a sudden plunge of his team forward. Looking around to see what caused them to scare, he saw a negro climbing up in the back part of the wagon. The negro told him that he wanted to ride with him a short distance. He told the negro that he couldn't do it. The negro replied that he would ride anyway, and kept climbing forward. He grabbed Chastine around the waist, and with a revolver pointing at his breast, demanded his money. The farmer told him that he didn't have any, but the negro replied that he knew better. Chastine punched him with his elbow and tried to free himself.

At this stage a second robber rose up out of the bushes and told him to stop that punching or he would kill him. The negro on the wagon then relieved him of the money, which was wrapped up in a paper in his hip pocket. As the robbers departed they told him if he looked back they would kill him, and if he left the spot before sundown they would follow him up and kill him. The farmer waited until they got out of hearing and came on to Paris and reported the holdup to the officers.

The negro was described as heavy set, dressed in a checkered jumper and as having a scar an inch and a half long across the right cheekbone. Mr. Chastine is of the opinion that the second robber was a white man blackened up. He had an aquiline nose and spoke as if trying to disguise his voice.

A FAMILY CREMATED.

Mrs. Grambell and Her Four Small Children Murdered and Burned.

Canton, Miss., Oct. 20.—One of the most terrible happenings that has ever occurred in this section was the burning of the house and family of J. H. Gambrel of St. Anns, in Leake county, near the Madison line. Mr. Gambrel left home Wednesday morning with a load of cotton and reached Canton that night. He sold his cotton Thursday morning and left at once for home. Just after he left Canton a telephone message was received stating that his family, consisting of his wife, two grown daughters and two little boys, had been murdered and robbed and the house and family of five in the house was burned. The unfortunate man left town before the news came, and did not hear of his terrible misfortune until he reached home. There is no clew to the perpetrators of the terrible crime.

ROBBED AND MURDERED.

Mrs. Pepper and Her Grandson Slashed to Death With an Ax.

Hodgenville, Ky., Oct. 20.—News of a coldblooded double murder, evidently committed for the sole purpose of robbery, has reached this city from Lynn Camp Creek, Hart county. Mrs. Sis Pepper, an aged woman of that neighborhood, and her grandson, a boy named Hudgins, are the victims. They had been dead nearly two days when discovered and their mangled bodies had been lying out in the yard where they had been thrown by the murderers. The deed was committed with an ax and Mrs. Pepper had been chopped almost to pieces.

Negro Soldiers Cause a Riot.

Laredo, Tex., Oct. 20.—Friction between the Laredo police and the negro soldiers at Fort McIntosh resulted in a street riot Wednesday night. A Mexican received a Krag-Jorgensen bullet through the shoulder. Policeman William Stoner was fearfully beaten with clubbed rifles and at least a hundred shots from the army rifles and pistols were fired by the riotous negroes. Several arrests have been made. The trouble started over Stoner's arrest of a negro soldier.

Twenty Thousand Bales Received.

Corsicana, Tex., Oct. 20.—Up to the close of business at the cotton yards Thursday 20,000 bales of wagon cotton had been received at this point since Aug. 1. From all parts of the country the reports comes that the crop is about all in except on a few low land or bottom farms. There is hardly a probability that over 5000 more bales will receive here this season.

Dewey-Brumby Day in Georgia.

Atlanta, Oct. 20.—In recognition of Admiral Dewey's visit to this city Gov. Candler has issued a proclamation declaring Oct. 26, known as Dewey-Brumby day, a holiday in the entire state. The features of the occasion will be the presentation to Lieutenant Brumby of a sword given by citizens of Georgia. Admiral Dewey will make the address presenting the sword.

COMING ELECTIONS.

INTEREST UPON OHIO

The Greatest Campaign Known Is Being Carried on in That State and Kentucky Comes in as a Close Champion.

Washington, Oct. 20.—Interest in state elections in November is waxing warm at the national capitol, with Ohio at the head of the list. This is because of the earnest campaign in that state between John R. McLean, the Democratic candidate for governor, and George K. Nash, the Republican candidate. No such campaign as that now being carried on has ever before occurred in that state.

RACE WAR IN ALABAMA.

Two Negroes Dead, Several Wounded and Two in Jail.

Decatur, Ala., Oct. 20.—There are two dead negroes, three or four wounded and two in jail as a result of a race war Wednesday at East Decatur. It was not discovered until daylight Thursday that any negro had been killed, though it was known that several had been badly wounded.

The ringleader, Alex Orr, a bad, turbulent negro, was surrounded and arrested, and it is now hoped the difficulty has quieted down, though the citizens have all armed themselves and are expecting further trouble.

The riot was caused by a negro woman, the wife of Alex Orr, abusing the wife of James James, a steamboat engineer, for which James severely beat the woman, and was waylaid Wednesday night by a negro mob and fired upon.

The decision was given in a lengthy opinion which upholds the findings of the court martial.
